

Euro Fed Lipid

Membership

Take part – be involved

Join us as an individual, as a company or as a member of one of the National Societies. Our community of fats & oils professionals provides a perfect opportunity for networking and presenting new technologies and research.

Membership benefits

- Ample opportunities for international co-operation and networking
- Reduced congress fees
- A very attractive subscription rate for the 'European Journal of Lipid Science and Technology'
- A reduced rate for the "Standard methods for the analysis of fats and other lipids"

Membership services

1. Organisation of congresses, symposia, workshops, continuing education courses, co-ordination of scientific task groups and PR activities
2. Set-up of interdisciplinary discussion platforms
3. Links to scientific and technical counselling
4. Representation of European lipid, fats and oils research
5. Improvement of public understanding for the lipids, fats and oils agenda
6. Promotion of co-operation and exchange between European scientists and companies

I am convinced – How do I become a member?

It's easy – Members of the national European Fats & Oils associations forming Euro Fed Lipid are considered full members of Euro Fed Lipid already. If you are not a member of a national society, please fill in the membership application form and send it to the headquarters. If you are from industry please consider the special benefits of a corporate membership for your company:

- All employees enjoy the benefits of being a member!
- Presentation of your company at the Euro Fed Lipid webpage
- Membership conditions for participation in the annual interlaboratory comparison test on Fats and Oils apply

Euro Fed Lipid: a lively network Lipids, Fats and Oils

Euro Fed Lipid

Euro Fed Lipid

History of Euro Fed Lipid

National roots – international activities

The European Federation for the Science and Technology of Lipids (Euro Fed Lipid) was founded 19 September 2001 by national societies in Europe. Since then, Euro Fed Lipid has offered an increasing amount of services, including a major European congress series, workshops and symposia in different areas of interest. Its publishing organ is the European Journal of Lipid Science and Technology.

Euro Fed Lipid aims at

It's all about networking

- Furthering the cooperation and exchange between scientists, technologists and industry
- Promoting networking between industry and academia
- Arousing public interest and understanding
- Publishing specialized literature
- Awarding distinctions for outstanding scientific performance
- Maintaining the European Journal of Lipid Science and Technology
- Promoting an increase in scientific and technological knowledge in the fields of lipids, fats and oils and to encourage its diffusion.

Main activities of Euro Fed Lipid

Services for the community

1. Organisation of Congresses
2. Organisation of Trade fairs
3. Divisions devoted to specific areas to promote networking among members
4. Symposia on specialised topics
5. Educational courses and short courses
6. Awards – Euro Fed Lipid annually presents awards to renowned scientists, namely the “European Lipid Science Award” and the “European Lipid Technology Award”. Young researchers can apply for the “Young Lipid Scientist’s Award”
7. Consulting – using its resources for consulting at all levels of scientific and technical expertise and thus being the strategic link to EU science policy makers.
8. Public Relations – to promote the public understanding, acceptance and increasing awareness of matters relating to the science and technology of lipids, fats and oils.
9. Publications – to maintain the European Journal of Lipid Science and Technology as a globally recognised scientific publication.
10. Monthly E-Mail newsletter – to keep the community updated
